

## NOTICE

The St. Albans Bay Lake Improvement District (SABLID) has contracted to treat Curly Leaf Pondweed and Invasive Milfoil, Aquatic Invasive Species in 2025.

The St. Albans Bay Lake Improvement District (SABLID) has requested from the Minnesota Department of Natural Resources to the St. Albans Bay Lake Improvement District (SABLID) a waiver of the requirement that the Association obtain the signatures of approval of owners of lakeshore property. Instead, the St. Albans Bay Lake Improvement District (SABLID) will notify property owners of the treatment through alternate forms. This notice is one form that the St. Albans Bay Lake Improvement District (SABLID) is using to notify property owners. Other forms may include but are not limited to notification through the associations email list, website, annual newsletter and or meeting.

Regarding the treatment for this year, 2025:

1. The proposed date for treatment: April 15 through September 30, 2025
2. The target species for the treatment: Curly Leaf Pondweed, Eurasian Water Milfoil
3. The method of control or product being used: EPA and MDA registered aquatic herbicides
4. How landowners may request that control not occur adjacent to the landowner's property: If you desire that the treatment of invasive species not occur adjacent to your property, please notify the St. Albans Bay Lake Improvement District (SABLID) immediately at the following address and email address below:

St. Albans Bay Lake Improvement District

905 Excelsior Blvd

Excelsior, MN 55331
